Texas College of Traditional Chinese Medicine is pleased to announce the results of the most recent round of National Certification Commission for Acupuncture and Oriental Medicine certification examinations.

Once again, TCTCM students have exceeded national averages for both mean scores and pass rates, with this year's first-time examinees boasting a 100% pass rate on all sections of the examination, and with a mean score of anywhere from 7.4 to 22.37 points above the national mean on individual test sections.

TCTCM is proud of the accomplishments of our students, whose scholarship, dedication, knowledge and skills have once more placed them at the forefront of acupuncture education.
